Abu Sime Khan Ohi

Web Developer

Tangail, Bangladesh | ohikhan63907@gmail.com| +8801855240429| github.com/AB-ohi | Portfolio

PROFESSIONAL SUMMARY

Frontend Developer with hands-on experience building responsive, high-performance web applications using React, Next.js, and Tailwind CSS. Skilled in REST API integration, authentication systems, and payment gateway implementation (Stripe, SSLCommerz). Strong background in JavaScript (ES6+), Node.js, Express.js, and MongoDB, with a track record of delivering production-level features in agile team environments. Passionate about clean code, UI/UX best practices, and continuous learning of new technologies.

CORE SKILLS

- Languages & Frameworks: JavaScript (ES6+), TypeScript, React, Next.js, Node.js, Express.js
- Frontend: HTML5, CSS3, Tailwind CSS, Responsive Design, React Hooks, UI/UX Design
- Backend & Database: REST API Development, MongoDB, Mongoose, JWT Authentication, Firebase Authentication
- Payment Integration: Stripe, SSLCommerz
- Tools & Platforms: Git, GitHub, VS Code, Chrome DevTools, Netlify, Vercel, Figma, Agile/Scrum
- Soft Skills: Communication, Problem-Solving, Team Collaboration, Creativity

PROFESSIONAL EXPERIENCE

Full-Stack Developer — Shuta (Jan 2024 - Present)

- Developed responsive, user-friendly interfaces using React and Tailwind CSS for production-level applications
- Integrated REST APIs and managed dynamic data flow across multiple application modules
- Collaborated with cross-functional teams to deliver features in an agile development workflow

Web-Developer— biddrup (Oct 2021 - Jan 2023)

- Built a video processing tool with ffmpeg, solving complex media-handling challenges across Node.js and React.js
- Migrated static WordPress sites to dynamic MERN applications, adding proper data management and a better user experience.
- Improved reliability and performance through systematic debugging and targeted optimizations, recognized by teammates for the impact

PROJECTS

Multivendor E-Commerce Platform — Personal Project Current

- Built a multivendor eCommerce platform for selling products and managing a physical shop
- Implemented a Dokan-style system enabling users to create and manage their own stores
- Designed a shared marketplace architecture supporting multiple vendors

Infonexus — Business Advisory Web App (Next.js, Firebase, Stripe) Team Project

- Implemented full authentication system with Firebase
- Built a real-time live chat feature for customer support
- Integrated Stripe payment processing for transactions

Avengers Playsets — CRUD Marketplace (React, Firebase, MongoDB)

- Implemented role-based access control for Buyer and Seller user types
- Built a product management system with secure, protected routes
- Restricted access to authenticated users only for sensitive pages

Melody Music — Music Learning Platform (React, JWT, Stripe)

- Secured backend APIs using JWT authentication
- Developed reusable custom React hooks to improve code maintainability
- Implemented an online payment system for course transactions

EDUCATION

B.Sc. Honours in Mathematics — ABUDHARR GHIFARI COLLEGE (2021-2025)

Web Development Program — Programming Hero (Batch 7)

Python for Beginners— Simplilearn
